

PROFILE

I am a hardworker and a fast learner. When it comes to programming, I enjoy it to the point that it has become my 24/7 reality. I love challenges and have a natural talent for learning new programming concepts. From me, you can expect a huge amount of hard work and dedication in everything I do. In the last 3 months, I have led and developed more than 20 projects from beginning to end, with +1,300 code contributions
